FREEDOM OF THE ROAD"

We Want You

To Ride With Us!

## Long Island ABATE

AMERICAN BIKERS for AWARENESS TRAINING & EDUCATION

The main purpose of the ABATE organization is to work toward continued freedom of the road by insuring that motorcyclist's point of view is presented to our legislators and to promote motorcycle safety, rider education and public awareness. We are trying to alleviate the very real possibility of "Big Brother Government". We encourage all our members to be informed registered voters. We write letters to our elected officials and stay aware of what is going on with motorcycle legislation, and other transportation issues. We welcome interested parties to any of our activities or to join our organization.

# President's Message

Hello Everyone,

As you read this, summer has officially come to an end, although this is in my opinion the greatest time of the year to ride. There are still so many events happenings locally, nationally, and let's not forget the changing of the leaves and the foliage rides upstate and in the neighboring states. Before you go out, don't forget to go over your machine and double check your tire pressures. Don't forget to pack accordingly, especially since there can be a large temperature change once the sun goes down.

We have had way too many Crashes again this past month. I can't stress the need to anticipate possible crash situations when you ride. I also can't forget the importance of practicing and advanced training. Whether you practice in a parking lot or take a class there are so many things we can do to better our skills and better our chances of survival and safe riding. Slow speed maneuvering and emergency braking are just a couple of things that can make a big difference.

A few of the Board members and myself went to the Meeting of the Minds Convention, which is where we meet with over 40 Motorcycle Rights organizations and Clubs from around the Country. While there we discuss legislative issues and network to come up with the Legislative agenda for May at the Bikers in the Beltway event in Washington D.C. While there we also recharge our Freedom Fighter Batteries with like-minded individuals. Both events are awesome, and I recommend them for others to attend. If you are interested in either event, please contact me or a board member, we would love to hear from you and join us.

The Veteran's Committee is going to meet and go over the details for this year's disbursement, more info to follow. Nominations open up at the next meeting and November, as well as elections. We have the Treasurer position open as well as Donation coordinator and a few other positions open for next year. If you or anyone you know is interested in getting involved and making a difference, please contact me or a board member

The Driver's ed classes continue, and we are looking to enroll more presenters, and we are looking to present at more schools. If anyone has any school contacts, please reach out. I have received a lot of positive feedback from teachers and students. Together we can make a Difference!

As always Long Island ABATE is looking for input and participation from members to better the organization as well as volunteers to help us maintain and grow the organization, while protecting the rights of motorcyclists and trying to keep us safe. If you would like to get more involved or have ideas, please reach out to me or any Board Member. We would love to have you and or your input.

Thank You for your continued support.  
Together we can make a Difference

Ride safe and Be Well

Chris Beckhans

Greetings all Long Island Members of ABATE!

I hope all is well with you and family! All is well with me and mine! I would like to share with you my time in Colorado visiting my brother and his wife.

After an early flight to Denver, my wife and I rented a car and drove four hours to Carbondale, outside Aspen. After we had arrived and was greeted by my brother and his wife, I asked about the motorcycle community and anything he might know about ABATE of Colorado. He hadn't heard of anything, and honestly didn't know about any motorcycle groups. He knew of my participation and position on Long Island and we spoke about our first motorcycle experience.

It all started when we were both teenagers in the late 60's. We were visiting a farm of family friends in upstate, in Stamford NY. While outside in a field, we heard the sound of a motorcycle, weaving through some high grass near us. A younger boy, who lived at the next farm, was riding a 100cc dirt bike. He stopped to say hello and after a short conversation; he asked if we rode any type of dirt bike and we both said no. He then asked if we would like to ride his? Well, HELL YEAH! , And me being the older brother, took the first motorcycle ride of my life! Of course my brother followed and it was a very long time that this kid got his dirt bike back! LoL!

When we arrived home, the experience stayed with us till after we graduated HS, had jobs and could think about buying a bike! My younger brother picked up a used BSA 650 which we shared till I bought a new 1971 Blue Harley Superglide. Unfortunately for my brother, while riding a side street near home, a car, making a left turn hit him! Thank God he landed in a large hedgerow with only a slight knee injury, which kept him out of the draft! As for me, I enjoyed working and riding to college accident free, till years later when I met my wife, needed money to buy a ring and sold my beautiful blue Harley!

So after reminiscing, our adventure in Colorado began! We visited many local tourist attractions, including some terrific places to eat! In Glenwood Springs I had to find Doc Holidays grave and visit. I also picked up a T Shirt while walking the streets.

I hope this tale will remind you of you first time riding and the love we all have on a motorcycle! So please be safe and stay healthy!

Thank you for being a Long Island ABATE member,  
I know I am!

Regards,

*Nick*

# Updates From Josephine

Article by ...Josephine... 2<sup>nd</sup> VP Long Island ABATE

Hello all my campers and non-campers! Hope everyone is having a great summer! And riding season! On August 23rd and 24th the Long Island ABATE Campout was the happening place to be! Just ask anyone that was there! And they will tell you that you missed a GREAT time, and that you should definitely go next year! Each year since we started the camp out from when we came out of COVID, it has been getting bigger each year, and very well known! This year we actually had people come down from upstate from New York ABATE, And people come in from Maryland and New Jersey! The word is getting out about our campout. It's the most fun you can have legally in a county park! Each year more and more people are starting to camp out a few days before the Long Island abate campout starts. Many of the big campers are coming in the Wednesday and Thursday before to get their spots. By Thursday night everyone is set up and starting to camp from then. On Friday we now have the county parks department start setting up the tables chairs stage etc. Also on Friday we start getting the delivery of the big tent, the ice, the porta potties and the big barbecues. Volunteers start putting together tents and setting tables so that way we are ready for Saturday's event! Friday night is some down time with a lot of friends who put together a big Friendsgiving dinner! It's a very big production and a lot of fun! Then Saturday morning it's game on! All hands on deck! Food is being prepped to go on to the barbecues, products are being set up to be sold, there's 50/50 raffles, lo, Chinese auction baskets, bike games, some of the best bands setting up on stage! At the end of the evening there are so so many people and volunteers to thank! I hope you all know who you are! We are all very grateful and thank you for everyone's help every year to make Long Island ABATE's camp out such a success! I hope you all enjoy the pictures.

After the campout we took a little r&r, but as soon as we got back we were all right back at it again. On Wednesday September 3rd was the blood drive at the Port Jeff Elks Lodge. It was hosted by the Elks Lodge, Long Island ABATE and Long Island chapter of hog. We are all very thankful for everyone who donated blood that night, it was a total of 36 pints which will help approximately 110 people.

On Saturday September 13th Long Island ABATE was set up at Miller's ale House in Levittown for the motorcycle ride and car show to benefit the Gabby Petito Foundation. It was sponsored by Hades Houbds LE-MC. The ride started out at Miller's ale House in Deer Park and ended at Miller's ale House in Levittown. It was a great day weather wise and a really good ride!

On Sunday September 14th Long Island ABATE was set up at US military vets MC end of summer gathering. It was a really nice event, they had a great band, lots of vendors, and awesome food! You couldn't have asked for even better weather that day! Until the next events I hope everyone enjoys the writing the weather and stay safe!

## Reach Out

Look out for each other. This is not to say that we should not look after ourselves also. We are useless to help others if we do not take care of ourselves. We get sick or hurt and need attention. It is said that there is no greater love than one lay down his life for his friends. Sometimes we get so wrapped up in ourselves that we forget that other folks are going through stuff too. It's completely understandable. But when we focus on others, sometimes our personal issues won't take over our minds. Family, friends, children, parents, coworkers, and even supervisors, we all have stuff going on. It's interesting though, focusing on someone else's situation can be a

way to emotionally, sometimes physically, relieve our own ailments for a short period of time. It is a needed distraction. You won't get healed, but that distraction can give us relief from pain.

Don't ignore yourself, just be more loving.

To remind you, if you ever want to talk something out, or if you're going through something that is stressing you out, even if you only want an opinion about something, please feel free to contact me. We can get through whatever it is together.

## Upgrade to State-of-the-Art Hearing Devices . . . and Upgrade Your Life

Many individuals with hearing loss can experience remarkable improvement with modern hearing devices, which have evolved considerably over the years. Today's hearing devices are a far cry from the bulky models of the past. Designed with aesthetics in mind, they are small, sleek, and discreet.

Despite their compact size, contemporary hearing devices are essentially sophisticated micro-computers packed with incredible features such as Bluetooth® connectivity, rechargeability, and background noise reduction. These state-of-the-art advancements can significantly enhance your quality of life by improving daily communication, social connections, and overall well-being.

### Bluetooth® Brings Sound Straight to Your Ears

Bluetooth® technology allows devices to transfer information wirelessly using radio waves. Similar to how wireless earbuds connect to a smartphone, Bluetooth®-compatible hearing aids can link directly to your smartphone, allowing you to stream audio such as music, podcasts, and even hands-free phone calls directly into your ears.

### Enjoy the Benefits of Bluetooth® Streaming

**Easier-to-Hear Sound** — Bluetooth® connections result in clear, undistorted sound being delivered directly to your ears, making it easier to hear and understand even in noisy environments.

**Personalized Listening Experience** — You can stream audio to one or both of your hearing devices, allowing for stereo listening or taking calls in one ear while keeping the other free. You can also adjust the volume you hear from the TV independently of others in the room.

**Multiple Connections** — When you have your hearing aids paired to multiple devices, you can effortlessly switch between them. If you're streaming audio from your smartphone and a call comes in, the audio will pause to ensure you hear the ring as well as the conversation.

### No Muss, No Fuss Rechargeable Batteries

Rechargeable lithium-ion batteries in your hearing devices hold a charge for more than 24 hours of power, ensuring you don't miss a sound all day long. They eliminate the need for constantly buying and changing disposable batteries. Rechargeable batteries last approximately five years or more before needing replacement. The rechargeable batteries in modern hearing aids are not removable, providing peace of mind from accidental ingestion by pets or young children.

### Automatic Background Noise Adjustment Is Awesome

Unlike older technology that amplified all sounds equally, today's devices intelligently minimize background noise while maximizing speech understanding. Thanks to directional microphones, automatic frequency response changes, and specialized built-in sensors, the hearing aids will adjust themselves automatically so that you can more clearly understand conversations in noisy locations.

### Phone Apps to Fine Tune on the Go

Your smartphone can serve as a remote control for your hearing aids. By installing your hearing aid manufacturer's app and connecting your devices, you can adjust volume, directionality, sound quality, and noise reduction features on the go.

### Improve Your Life with the Latest Technology

Embracing the latest hearing device technology can help you stay better connected to the activities and people you cherish. If you are interested in experiencing these advancements firsthand, we invite you to contact H.E.A.R.S. Audiology to schedule a demonstration.

## ENJOY THE BENEFITS OF MEMBERSHIP

*Join the cause & become a member today !*

The MRF's primary goals include:

- Monitoring and influencing federal legislation for any impact on the motorcycling community at large
- Representing street motorcyclists by participating in federal research and advisory committees
- Protecting street motorcyclists from unfair or burden some federal agency restrictions and regulations
- Ending discrimination against street motorcyclists
- Providing all street motorcyclists with direction and information to protect their motorcycling rights
- Promoting motorcycling safety, training, education, licensing and public awareness on American roads

## WHO WE ARE

The Motorcycle Riders Foundation is the Nation's premiere motorcyclists' rights organization that is chiefly concerned with issues at the national and international levels that impact the freedom and safety of American street motorcyclists. We are also committed to educating rights advocates to improve effectiveness at the state and local levels. The MRF works together with street motorcyclists, State Motorcyclists' Rights Organizations (SMROs), the motorcycle industry, the media and other organizations, assisting them with state and local agendas as well as working with them to influence action and policy in Washington, DC - from the Congress to government departments and agencies to the Office of the President of the United States. We also work with allies in Canada, Europe and Asia to influence talks on vehicle globalization and harmonization that are proceeding under the United Nations and the World Health Organization.

Leave message

I bought the bike in 2019 in CT with 299 miles. It sat in someone's garage. My long time mechanic checked it all out. I've maintained it every year since. I also threw on new tires just to be on the safe side and the pipes. I'm not original owner. I have a clear title.
